OBJECTIVE

Computer Science & Business Systems undergraduate with hands-on experience in Python, HTML, CSS, JavaScript, Supabase, AI-powered applications, and UI/UX design. Experienced in developing web-based solutions and conducting hands-on web development workshops for 100+ students. Passionate about building innovative AI and software solutions.

EDUCATION

Bachelor of Engineering (B.E) – Computer Science & Business Systems | 2027
Malnad College of Engineering, Hassan | CGPA: 8.00/10 | PUC: 86.8% | SSLC: 84.4%

SKILLS

Programming Languages	Python, HTML5, CSS3, JavaScript.
Development Tools	GitHub, Lovable, Replit, Antigravity, Visual Studio code.
AI & Prompt Engineering	AI Tools (GPT, Cursor, Claude), Prompt Engineering.
UI/UX & Design	Figma, Stitch, Canva, user-focused responsive interfaces.
Skills	Team-work, Communication, Leadership, Problem Solving, Adaptability.
Languages	English, Kannada, Hindi, Telugu.

PROJECTS

AI-Based Virtual Try-On Platform

Developed an AI-based shopping platform where users can upload a full-body photo to virtually try on outfits. Generates realistic visualizations to reduce size/style mismatches and includes content filters for safe, ethical use.

Technologies: HTML, CSS, JavaScript, Python, Supabase, AI/Prompt Engineering. [Live Demo: TryOnX](#)

EcoTrack - Intelligent Carbon Emission Management

Developed an AI-powered platform to track and analyze organizational carbon emissions, identify high-impact sources, and generate actionable recommendations to reduce carbon footprint and improve sustainability.

Technologies: React, Tailwind CSS, Python, JavaScript, AI/Prompt Engineering, Supabase. [Live Demo: EcoTrack](#)

Study-Buddy.AI - Powered Student Productivity Platform

Developed an AI-powered study management platform with task scheduling, notes, Pomodoro timer, goal tracking, progress analytics, and personalized dashboards, featuring responsive and user-friendly UI/UX.

Technologies: React, Tailwind CSS, Supabase, GPT, Claude, AI/Prompt Engineering. [Live Demo: Study-Buddy.AI](#)

Soot Pencil - Eco-friendly Graphite Alternative

Developed a sustainable pencil using carbon-rich soot as a graphite alternative, promoting carbon reuse, pollution reduction, and eco-friendly manufacturing through innovative material recycling.

ACHIEVEMENTS

- Winner – National-Level Sustainable Technology Development Event (IASF) for the Arcanut Collector project. [VIEW](#)
- Participant – TECH TRIAD 2025 International Tech Fest Hackathon at Dayananda Sagar Academy of Technology and Management. [VIEW](#)

LEADERSHIP & TRAINING

- **Web Development Trainer:** Trained 100+ students through hands-on workshops covering HTML, CSS, JavaScript, and Figma (UI/UX), focusing on practical web development and design skills. [VIEW](#)
- **Website Head – IUCEE National Student Chapter:** Worked as website head and contributed to chapter website and digital initiatives.
- Web Development Guide – Google Developer Groups. [VIEW](#)
- Web Development – IUCEE-EWB MCE. [VIEW](#)
- Participated in hands-on sessions on Artificial Intelligence and the MSG Goals Oriented Hackathon conducted by MIPZO EDTECH Pvt. Ltd. [VIEW](#)
