CERTIFICATION

- [Web Development guide - GOOGLE DEVELOPER GROUP](#)
- [Web development - IUCEE-EWB MCE](#)
- [Hands-on sessions on Artificial Intelligence and the MSG Goals Oriented Hackathon - MIPZO EDTECH PVT LTD](#)

SKILLS

- **Programming:** Python, HTML, CSS, JS.
- **Tools:** GitHub, Lovable, Replit, Antigravity, Visual studio code, Chatgpt, Claude (AI Prompt Engineering).
- **UI/UX Prototyping:** Figma, Stitch, Google Flow.
- **Video Editing:** Capcut.
- **Graphic Design:** Canva.
- **Soft Skills:** Teamwork, Communication, Leadership, Problem Solving, Adaptability.

ABOUT ME

Enthusiastic Computer Science & Business Systems graduate skilled in full stack development (Python, HTML, CSS, JavaScript). Passionate about building innovative web and AI solutions, with added expertise in video editing and graphic design to enhance user experience.

PROJECTS

AI-Based Virtual Try-On Platform

Developed an AI-based shopping platform where users can upload a full-body photo to virtually try on outfits. Generates realistic visualizations to reduce size/style mismatches and includes content filters for safe, ethical use.

EcoTrack - Intelligent Carbon Emission Management

Developed an AI-powered carbon emission management platform that helps organizations track their environmental impact in real time. The system analyzes emission data, identifies high-impact sources, and provides actionable recommendations to reduce carbon footprint and improve sustainability performance

link : <https://eco-track-topaz.vercel.app/>

Study-Buddy.AI - Powered Student Productivity Platform

Developed a premium AI-powered study management application featuring secure authentication, notes management, task scheduling, Pomodoro focus timer, daily goals, progress tracking, personalized dashboards, AI-assisted learning, and responsive UI/UX using modern web technologies.

Soot Pencil - Eco-friendly Graphite Alternative

Created a sustainable pencil by repurposing carbon-rich soot, reducing air pollution and promoting green manufacturing through carbon capture and reuse. Demonstrated practical innovation in environmental sustainability and pollution reduction.

ACHIEVEMENTS

- [Trainee for 100 students in Web Development workshop which included HTML, CSS, JS, FIGMA\(UI/UX\).](#)
- [Winner- National level event on Sustainable Tech development \(IASF\) for the project Arcanut Collector in Hackathon.](#)
- [Participated in TECH TRIAD-2025 International Tech Fest-Hackathon at Dayananda Sagar Academy of Technology and Management.](#)
- Worked as website head in IUCEE National Student Chapter.
