CERTIFICATION

- [Web Development guide - GOOGLE DEVELOPER GROUP](#)
- [Web development - IUCEE-EWB MCE](#)
- [Hands-on sessions on Artificial Intelligence and the MSG Goals Oriented Hackathon - MIPZO EDTECH PVT LTD](#)

SKILLS

- **Programming:** Python, HTML, CSS, JS.
- **Tools:** GitHub, Lovable, Replit, Antigravity, Visual studio code, Chatgpt, Claude (AI Prompt Engineering).
- **UI/UX Prototyping:** Figma, Stitch.
- **Video Editing:** Capcut.
- **Graphic Design:** Canva.
- **Soft Skills:** Teamwork, Communication, Leadership, Problem Solving, Adaptability.

ABOUT ME

Enthusiastic Computer Science & Business Systems graduate skilled in full stack development (Python, HTML, CSS, JavaScript). Passionate about building innovative web and AI solutions, with added expertise in video editing and graphic design to enhance user experience.

PROJECTS

Soot Pencil - Eco-friendly Graphite Alternative

2025

Created a sustainable pencil by repurposing carbon-rich soot, reducing air pollution and promoting green manufacturing through carbon capture and reuse. Demonstrated practical innovation in environmental sustainability and pollution reduction.

AI-Based Virtual Try-On Platform

2025

Developed an AI-based shopping platform where users can upload a full-body photo to virtually try on outfits. Generates realistic visualizations to reduce size/style mismatches and includes content filters for safe, ethical use.

link : <https://try-on-x-inky.vercel.app/>

EcoTrack - Intelligent Carbon Emission Management

2025

Developed an AI-powered carbon emission management platform that helps organizations track their environmental impact in real time. The system analyzes emission data, identifies high-impact sources, and provides actionable recommendations to reduce carbon footprint and improve sustainability performance

AI Health Care Reminder App (Ongoing)

2025

Developed an AI-integrated mobile app designed to assist elderly and uneducated individuals in managing their health. The app provides voice-based reminders for medication and doctor appointments, stores health records, and offers information about prescribed medicines—promoting better health management and timely treatment adherence.

ACHIEVEMENTS

- [Trainee for 100 students in Web Development workshop which included HTML, CSS, JS, FIGMA\(UI/UX\).](#)
- [Winner- National level event on Sustainable Tech development \(IASF\) for the project Arcanut Collector in Hackathon.](#)
- [Participated in TECH TRIAD-2025 International Tech Fest-Hackathon at Dayananda Sagar Academy of Technology and Management.](#)
- Worked as website head in IUCEE National Student Chapter.
